UNIFORM CRIME REPORTS

J. Edgar Hoover, Director, Bureau of Investigation
United States Department of Justice
Washington, D. C.

Volume 2 **FEBRUARY, 1931** **Number 2**

Contents of the February Bulletin.

This issue of the bulletin consists of the usual tabulation of offenses known to the police for the month of February as indicated by the returns submitted to the Bureau of Investigation by the various contributing police departments throughout the country. Returns for a number of counties in the various States have been received, as well as for three of the four divisions of Alaska, the Canal Zone, and Porto Rico. The figures submitted by these miscellaneous jurisdictions are included in a separate table exclusive of the figures submitted by urban police departments in the United States. In addition to the above the bulletin also contains a table showing the number of offenses known as reported by the various police departments in the country for the months previous to February, 1931. These supplementary returns, including a number of reports for months of 1930, were received by the Bureau of Investigation subsequent to the last issue of the bulletin.

"Offenses known to the police" include those crimes designated as Part I classes of the Uniform Classification, occurring within the police jurisdiction, whether they become known to the police through reports of police officers, of citizens, of prosecuting or court officials, or otherwise. They are confined to the following group of seven classes of grave offenses, shown by experience to be those most generally and completely reported to the police: Felonious homicide, including (*a*) murder, nonnegligent manslaughter, and (*b*) manslaughter by negligence; rape; robbery; aggravated assault; burglary—breaking or entering; larceny-theft, including (*a*) thefts of $50 and over and (*b*) thefts of under $50; and auto theft.

"Offenses known to the police" include, therefore, all of the above offenses which are reported by the police departments of contributing cities, and not merely arrests or cleared cases.

The bulletin also contains tables indicating the extent of the reporting area by States for 1931. Tables are also included which show the average daily number of offenses of the designated classes for January and February of the current year, as reflected by the figures received.

Extent of Population Area for 1931.

The total number of cities, exclusive of county returns and others, which have submitted the monthly returns on offenses known to the police, either in January or February of 1931, is 1,161, representing

an aggregate population of 46,563,548. More than 90 per cent of these cities contributed returns for both months.

The following table shows the number and per cent of the cities and the number and per cent of the population of those cities of more than 10,000 inhabitants from which returns have been received for 1931. The classification is based on the population data in the summary issued by the Bureau of the Census. In addition to the number of cities listed in the table there were 487 cities of a population less than 10,000, of an approximate population of 2,639,336, which have also contributed returns during the current year. The population represented by the returns from counties and others is not included in this table.

Population groups	Total number of cities or towns	Cities filing returns		Total population	Population represented in returns	
		Number	Per cent		Number	Per cent
Total	982	674	68	58,340,077	43,924,212	75
A. Cities over 250,000	37	33	89	28,784,770	20,660,998	72
B. Cities 100,000 to 250,000	56	53	94	7,540,966	7,169,091	95
C. Cities 50,000 to 100,000	98	81	83	6,491,448	5,317,617	82
D. Cities 25,000 to 50,000	185	142	76	6,425,693	5,056,793	78
E. Cities 10,000 to 25,000	606	365	60	9,097,200	5,709,713	62

The above table does not include 487 cities of a population less than 10,000 aggregating a total of 2,639,336 from which returns were received for 1931.

67 New Contributors for February.

During the current month returns were received from 67 cities which had not contributed crime statistics at any time previous to the publication of this issue of the bulletin. For the month of February figures were received from 1,077 cities. This number represents an increase of 28 over the total number of current returns received in January.

The number of returns, by States, received and published for the months of January and February, 1931, are shown in the following table:

Supplementary Returns Received for January, 1931.

In the following table is shown the total number of returns received for the month of January, 1931, including supplementaries. Supplementary, as distinguished from current returns, are those which have been received for previous months since the last issue of the bulletin. In addition to those submitted for January, 1931, a considerable number were also received for 1930. Although these latter returns for 1930 are published in this issue of the bulletin, they are not represented in this table.

Cities which have failed to contribute the figures on offenses known for January or February, 1931, are urged to do so.

Average Daily Offenses.

The daily averages of the number of offenses known of the designated classes as reflected in the following table are based upon the figures submitted by 995 cities which contributed both in January and February, exclusive of incomplete and patently defective returns.

Due allowance was made for the variance in the number of days in each of the above months.

Daily average 995 miscellaneous cities

	Total	Felonious homicide		Rape	Robbery	Aggravated assault	Burglary—Breaking or entering	Larceny—Theft		Auto theft
		Murder, nonnegligent manslaughter	Manslaughter by negligence					$50 and over	Under $50

Instructions for Reporting Auto Thefts.

The attention of contributors is invited to the fact that the term auto theft as used in the Uniform Classification of Offenses includes all cases where a motor vehicle is stolen, or driven away and abandoned, or such a taking is attempted. It does not include the taking of a vehicle without the owner's consent by any one having lawful access thereto for temporary use, when the car or vehicle is actually returned to the owner or the place from which it was taken. There should be excluded from this group, therefore, all those cases where a vehicle is taken by chauffeurs, garage employees, and individuals in a similar status who had no intention of stealing the vehicle. There should be included, however, in the monthly return, all cases where vehicles are taken and later abandoned by persons not lawfully entitled thereto. It is suggested that officials refer to the schedules for the various States which will be found on pages 217 to 456, inclusive of the manual, Uniform Crime Reporting, should any question arise as to whether a particular offense of this class should be included in the monthly report.
